

REMARKS

The amendments to the application are being made to reflect the national phase status of the application in the cross reference, and to include the Abstract.

Furthermore, the description page and drawing has been amended to address clarity issues raised in the Written Opinion with respect to the parent PCT application, and to correct informalities identified by the Applicant.

Specifically, the description of Figure 6 on page 12 has been amended to be commensurate with the actual drawing. The amendment is to correct the editorial errors in the application as originally filed and support for this amendment can be found on description page 18, lines 23-31.

The drawing sheet containing Figure 13 has also been amended to replace the terms "HPMO-1" and "HPMO-2" with "HMO-1" and "HMO-2". These amendments are to use the terms consistent with those used in the description. Support for these amendments can be found throughout the application as originally filed, for example, on page 12, line 32 to page 13, line 8 (in particular, page 13, lines 3-8).

It is respectfully submitted that all the amendments made herein are to more clearly and succinctly recite the invention and to correct defects in the application. These amendments are fully supported by the application as originally filed, and therefore no new matter has been added by the amendments.

Respectfully submitted,
Dowell & Dowell, P.C.

Amendments to the Drawings

The attached replacement drawing has been revised to replace the terms "HPMO-1" and "HPMO-2" in Figure 13 with their correct indications "HMO-1" and "HMO-2". This sheet, which includes Figure 13 replaces the original sheet including Figure 13.

Attachment: Replacement Sheet containing Figure 13.
